Our 4rth Mobility was held in Los Alcazeres, Spain, between 24-28 October 2022. IES Antonio Menárguez Costa High School hosted Project partner schools. Students gained the ability to recognize and use online tools to ensure privacy, which is an important part of online security. They learned which behaviors carry many risks in the online environment. They learned which security measures can be taken against possible cyber threats and Created an online security guide through collaborative group work.

# MOBILITIES AND GOALS

FEBRUARY 2023  
LTT – GREECE

OUR E-  
BOOK

The 5th Mobility was held in Agios Dimitrios - Athens, Greece, between 20-24 February 2023. The topic of the LTT was cyberbullying. Io GEL AGIOU DIMITRIOU High School hosted Project partner schools. A presentation on cyberbullying was given to students and parents by a member of the Greek Electronic Crimes Unit. Students and parents from other schools of the area were also invited to this event. We also visited the West Attica University of Informatics and Telecommunications in Athens, where students were given a presentation on the safe use of the internet and cyberbullying by a lecturer who had been arranged by the host school. In order to fully understand the effects of cyberbullying, a role-playing game showing the victim and the perpetrator was performed in school. Students prepared sketches about cyberbullying as a team. A drama show about cyberbullying was staged for school teachers, students and parents. Cultural trips to the Acropolis and the Archaeological Museum were also organized during the mobility.

## APRIL 2023 – LTT – SPAIN

The final mobility was held in Los Alcazares, Spain, between 24 - 28 April 2023. IES Antonio Menárguez Costa High School hosted Project partner schools second time. Because our French partner responsible for this LTT activity had left the project due to the pandemic. The mobility was particularly important because there was final exhibition of Project activities and It was the closing

meeting of the Project. Photos taken at previous mobilities and posters created by students and digital footprints, etc. were exhibited. In the beginning of the mobility participants were welcomed by school staff and administration. Presentations were made by host school students about digital citizenship and the effects of it on today's culture. Our students debated on the topics of information and data security, digital ethics and new etiquette, respect in the electronic environment, not sharing without permission and violation of rights, dimensions of digital citizenship. The digital footprinting activity of all participants was carried out and their digital footprints were visualized with web 2 tools. Students prepared posters and leaflets about rights and responsibilities of digital citizens and put them on cartoon boards for the final exhibition. Students, teachers and parents from other schools were invited to the exhibition which was organized in the coliseum of the school. In the exhibition were displays of countries and project activities, paper games and online games about cyber security and acting performances of students on the stage.
